Public Comment Period: Sarah Shaffer commented that her neighbor Stephanie Klima who lives in Florida asked her to put up No Trespassing signs on Ms. Klima's property to keep people from going onto the property for liability purposes. She also asked about how close to the road can someone put big rocks on Roaring Run Road? She is afraid that campers might hit them. Tom stated that the township has a 33Ft. right-away, and that he would check it out. Sarah also commented on the intersection of Tannery Rd. and Roaring Run Rd. how there has been some very close accidents with people not stopping at stop sign. Tom stated that they will talk with the twp. engineer on safety issues there.

Marty Hinebaugh commented that she has a negative evaluation on the small flow sewage system that the LCT coal mine is planning to put in at their coal mine. 1900 gallons of water will be going into the stream. She will continue to review the application. She commented also on the township not having a recycle program. She feels that if we join neighboring township's that there could be a regional recycling program put in place and she would be glad to help with it.. Tom stated that all townships are having the same problem with cost of recycling. To have a regional recycling area the Township's would have to put money up front. Grant money for recycling could be available for a regional development. Tom stated that the garbage haulers in the township would be mandated to offer recycling to their individual customers....would be an added cost onto customer's bills. If garbage hauler does not have recycling, then he cannot do business in township, that could hurt some garbage haulers. Talking with Cook twp. they suggested that people take their recyclables to the transfer bins in Latrobe.
